In re Application of:)
Adel Farhan Halasa, et al)
For: SYNTHESIS OF SOLUBLE)
FUNCTIONALIZED LITHIUM)
INITIATORS)
Serial No.: 10/713,122)
Filed: November 14, 2003)

Docket No. DN2000-159D01

Art Unit: 1621

Examiner: Barts, Samuel A.

I hereby certify that this correspondence is being
facsimile transmitted to the United States Patent and
Trademark Office to Fax No. (571) 273-8300 on
June 14, 2006.

Mary A. Nicoloff

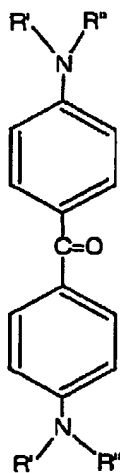

Commissioner for Patents
P. O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

SUPPLEMENTAL ELECTION

In response to the communication mailed on May 15, 2006 subjecting the above-identified patent application to a restriction or election requirement, the Applicants filed an election on June 12, 2006. However, the election made did not specify the species of functionalized lithium initiator that the Applicants were electing. Such an election is being made at this time to supplement the election previously filed.

The Applicants hereby affirm their election of Group I which includes claims 1, 4-8, and 19-20, drawn to compounds, classified in class 564, subclass 328. Additionally, the Applicants hereby elect as the species of functionalized lithium initiators those made by the process specified in claim 5. More specifically, the Applicants are electing functionalized lithium initiators made by a process which comprises reacting a dilithium initiator with an alkyl amino aryl compound of the structural formula:

wherein R' and R'' represent methyl groups. Presently pending claims 1, 4, 5, 7, 8, 19 and 20 are readable upon the elected species,

Respectfully submitted,

Alvin T. Rockhill
Attorney for Applicants
